

davis

I think keeping up with the workload and not slacking off on my homework will be the most difficult.

davis

I'm super excited for this year!!!

davis

I am a senior and I love to draw, watch the food channel and listen to music.

davis

I am taking AP Biology because I really enjoyed taking regular biology freshman year and I would like to major in genetics in college.

Davis Whalen

davis

I want AP Biology to be an interesting and to prepare me for a major in biology.

davis

I expect to come out with knowledge that will prepare me for a biology major in college, to work hard at whatever project my classmates and I work on, and for my teacher to be understanding.
